

## ANNUAL AWARD IN DERMATOLOGY

(Psoriasis)

The Department of Dermatology, Baylor University College of Medicine, announces the Mr. and Mrs. J. N. Taub International Memorial Award for Psoriasis Research. This award was established by Carol and Henry J. N. Taub in honor of their grandparents, Mr. and Mrs. J. N. Taub. The establishment of this ten year program carried with it the hope that this award will be the instrumentality by which a cure may be developed to alleviate one of the problems of mankind.

An annual award of One Thousand Dollars for research on psoriasis is designated for the individual or group who had done the most outstanding investigative work in this field. Results of the research must have been presented before a dermatological medical society or published in one of the recognized medical journals. The name of any applicant for the award, together with supporting data, should be submitted for consideration by December 1, 1958.

The recipient of the award will be determined by a committee composed of Drs. Marcus R. Caro, Edward P. Cawley, Arthur C. Curtis, Eugene M. Farber, John M. Knox, Aaron B. Lerner and Carl T. Nelson. If in the opinion of the committee a given calendar year fails to reveal a deserving contribution, the award will not be given.

Address all communications to:
